

WHAT IS A “SEAT”

Seats: Buyers will need to purchase one license for every computer on which the software will be installed (a SEAT). At the time of original purchase, the Buyer may select a single user license with 1 seat or a multiple seat license. Enterprise licenses are also available for larger companies with multiple locations with a need for many “seats”.

License Validity: Licenses are valid for one (1) full year from the date of purchase, not the date of activation. The license and expiration date will be the same for all seats purchased within a single license (i.e. *i2ACT-800s*, 3-seat license) regardless of when any of the subsequent seats are activated.

Purchase of Additional Licenses: Buyers may purchase additional seats AFTER a multi-seat license has been purchased by calling Imprimis, Inc. at 719-785-0320, Monday-Friday from 8 AM to 5 PM Mountain Standard Time. Pricing varies with the volume purchased and will be based upon the original multi-seat license purchased.

The purchase price for seats that are added after the original purchase will be prorated for the remainder of the original license period so that all seats will be coterminous. Imprimis strongly recommends that companies purchase the maximum number of seats they believe they will need at the original time of purchase. This allows for the best value and the discounted price for a volume purchase.
